Frontend developer with 5 years building production web apps in Vue, React and TypeScript: e-commerce across 4 brand web stores at Ellos Group, a real-time IoT dashboard at Wideco, and an onboarding app at Consid that saves 10+ hours per new hire. Earlier career in marketing and business development; comfortable working directly with UX and business stakeholders. Since 2025 adding C#/.NET to work across the stack (HVE program, internship at Avarda / TF Bank).

Experience

Frontend developer (part-time) | Centiro | Borås **09/2026 - 11/2026**
- Support in updating framework version and properly **implement the company's design system**.

Tech: Angular, Claude Code, Figma

Backend developer - Internship | Avarda (TF Bank) | Borås **05/2026 - 06/2026**
- Rebuilt the controller behind a consumer-loan application flow in .NET/Umbraco: fixed model binding, mapping and serialization, and **routed each submission to the right product endpoint** based on CMS metadata.
- Gave CMS editors **control over preferred, allowed and blocked countries** and how they appear to end users.

Tech: C#, .NET, Umbraco CMS, LINQ

Frontend developer | Nexer | Borås (termination due to shortage of work) **10/2024 - 12/2024**
- Worked on a **project** where the **backend** was developed in C#/.NET and the **frontend** in React, which strengthened my practical experience in full-stack development and database management.
- Deepened my expertise in **C#, .NET,** Node.js, Express, and MongoDB.

Tech: React, JavaScript, TypeScript, C#, .NET Core, Node, Express, Entity Framework, SQL, NoSQL, REST API

Frontend developer | Consid | Borås (termination due to shortage of work) **01/2023 - 07/2024**
- Modernized and maintained a **custom CMS with a focus on reusable components**, an updated tech stack and performance.
- Built an onboarding app with login and status tracking that replaced a manual process**, saving 10+ hours per new hire** and giving a company-wide overview that previously existed only per office.
- Replaced external services with a custom digital annual report, **cutting costs by nearly 50%** and making it easy to reuse and customize.
- Built features for a consultant-matching portal (registration, dashboards, advanced search and filtering) designed for **1000+ consultants**.

Tech: React, Next.js, Vue, Context API, JavaScript, TypeScript, Tailwind, AntDesign, REST API

Frontend developer | Ellos Group | Borås **08/2021 - 01/2023**
- Shipped features and performance improvements across **4 brand web stores** in Vue/Nuxt, prioritizing work with e-commerce managers and UX/UI.
- Built **reusable** campaign, countdown and landing-page **components** shared across the brand stores, used in, a.o., the Black Friday campaigns.
- Built **supply-chain transparency features** showing each product's manufacturer, origin and certifications.
- **Integrated third-party services**, including AR and Trustpilot reviews.

Tech: Vue, Nuxtjs, Vuex, JavaScript, TypeScript, Amplience, Stylus, REST API, GraphQL

Frontend developer | Wideco | Borås **03/2020 - 06/2021**
- Built and maintained a **web dashboard for real-time IoT data** – charts, alarms, lists and maps.
- Owned the **REST API integrations** feeding the dashboard.
- Added **unit tests** for core components.

Tech: Vue, Vuex, JavaScript, TypeScript, Bootstrap, REST API, Jest

Web developer | Sprinta | Gothenburg **09/2019 - 01/2020**

- Built an **internal CMS, used by 50+ consultants**, for managing profiles, assignments and availability (fullstack internship).

Tech: Angular, JavaScript, TypeScript, C#, ASP.NET, Entity Framework, LINQ, MSSQL, REST API, Web API

Projects & volunteer

Fullstack developer | One Sky Collective | remote (volunteer) **04/2025 - 06/2025**

- Contributed to the **MVP of a non-profit, gamified environmental-awareness platform**: built the mobile app in React Native.

Tech: React Native, Expo, JavaScript, TypeScript, Tailwind

Frontend developer | SkilledUp Life | remote (volunteer) **12/2024 - 04/2025**

- Part of the **Vue 3 rebuild** (V2) of a volunteer platform for thousands of volunteers and companies; built dashboards, cards, navigation and settings for volunteer, company and admin roles (Vue 3, Pinia, TypeScript, Tailwind).

Tech: Vue, JavaScript, TypeScript, Pinia, Vue Router, Tailwind, REST API
